

SureColor SC-P5000

Enduring quality

A versatile, high quality proofing, fine art and photography printer, the SureColor SC-P5000 offers outstanding reliability and excellent colour accuracy, and is certified to precisely reproduce up to 99% of Pantone Solid Coated Colours¹.

Outstanding colour accuracy

Perfectly reproduce up to 99% of Pantone Solid Coated Colours¹, with finished colour prints that are faithful to the original work.

- For proof printing, the near-perfect matching of Pantone spot colours¹ ensures the same colour profile can be used in production
- For professional photography, the printer produces high quality finished prints
- For fine art printing, reproduce artwork with specific colours and detail, even on specialised media

High quality print

Innovative printhead and ink technology delivers exceptionally accurate dot placement.

- Ink droplets as small as 3.5 picoliters and resolution up to 2880x1440 dpi create vivid prints that are true to life
- The 11-colour UltraChrome HDX ink set delivers black ink at an increased optical density due to the high number of pigments
- The new yellow ink formulation gives higher lightfastness and ensures consistency with every print

Excellent reliability and long-lasting ink

A range of improved and new reliability features ensure smooth running and minimal maintenance.

- Large ink cartridge capacity of 200ml, providing economic maintenance-free printing
- Automatic fast-speed nozzle checking to prevent clogging, dust intrusion deterrent, anti-static prevention and Timer Cleaning function

Easy set-up and operation

Extremely simple to set up and use, the SC-P5000 offers superior speed and reliability.

- A step by step guide on an intuitive LCD panel means minimal user-intervention, training or set up time
- An internal colour calibration sensor and the optional SpectroProofer ensure repeatable colour accuracy on any medium
